Parking App
Fast, Easy, and Convenient Parking Payments

About

Parking should be quick and stress-free, whether you're an employee with regular access or a visitor looking for a simple payment option. With BigTac's **Parking App: Seasonal and Visitor**, we've created a WebApp that offers seamless, hassle-free parking payments for all users. By scanning a QR code located in the parking area, customers are instantly directed to the WebApp, where they can complete their payment with just a few taps, eliminating the need for long lines or payment kiosks.

What is the Parking App: Seasonal and Visitor?

The Parking App: Seasonal and Visitor is a web-based application designed to streamline parking payments for both frequent and occasional parkers. The app is accessible by simply scanning a QR code displayed within the parking lot. This quick access makes it easy for all customers to make payments from their smartphones, ensuring an efficient parking experience.

Seasonal and Visitor Parking

Seasonal Parking

Seasonal parking is perfect for individuals, typically employees of shops or businesses, who need   regular access to the parking facility. With the Parking App, seasonal users can make monthly payments conveniently through the WebApp, ensuring their parking space is consistently available without the need to manage daily payments. This setup provides easy access and a reliable solution for recurring parkers.

Visitor Parking

For normal customers visiting the location, **Visitor Parking** allows for quick, one-time payments through the WebApp. Ideal for anyone parking for a few hours or a single day, visitor users can scan the QR code upon arrival, pay for the time they need, and focus on their activities. This efficient solution eliminates the need to wait in line at pay stations, allowing for a smoother experience.

BIGTAC SDN BHD.

Key Features & Benefits

1.
QR Code for Instant Access

Customers simply scan the QR code posted at the parking location, which directs them to the WebApp without requiring any downloads. This approach ensures that any customer with a smartphone can access the platform easily and quickly.

2.
Seamless Payment Process

The WebApp provides a straightforward, secure payment process, allowing users to complete their parking payment in seconds. This eliminates the need for cash handling or waiting in line, making it a convenient solution for all parkers.

3.
Dedicated Support for Seasonal and Visitor Parking

With dedicated options for both seasonal and visitor users, the WebApp caters to the needs of all customers. Seasonal users can manage monthly payments with ease, while visitor users enjoy a quick, no-hassle payment option for short-term parking.

4.
User-Friendly and No Downloads Needed

As a WebApp, there's no need for customers to download or install anything on their devices. This not only saves storage space but also allows for an instant, convenient experience that fits seamlessly into their routines.

5.
Simple and Intuitive Design

The Parking App: Seasonal and Visitor is built with simplicity in mind. With clear navigation and easy-to-follow instructions, users can complete payments effortlessly, regardless of tech experience.

How the Parking App Benefits Users

By combining convenience with tailored features, the Parking App: Seasonal and Visitor transforms the parking experience. Seasonal users can rely on a consistent monthly payment solution, making parking hassle-free for employees and regular visitors. Meanwhile, short-term parkers can quickly and efficiently handle payments, getting on with their day without unnecessary delays.

Try the Parking App: Seasonal and Visitor Today!

Experience the ease of digital parking payments with BigTac's Parking App: Seasonal and Visitor. With just a scan, pay and park confidently, knowing that BigTac has streamlined every step for your convenience.
